

JAMIE PARR

Computing Technologies Student | Seeking 2027/28 Technology Placement

Belfast, Northern Ireland | Full UK driving licence | jamieparr205@gmail.com | linkedin.com/in/jamie-parr-tech

PROFILE

Second-year BSc (Hons) Computing Technologies student at Ulster University seeking a 2027/28 industrial placement. Practical experience across programming, databases, web development, operating systems and troubleshooting, supported by nearly five years of continuous employment in warehouse and production environments. Comfortable learning unfamiliar software, diagnosing routine technical issues, documenting work and contributing within fast-paced teams. Interested in software development, IT support and infrastructure, QA/testing, cloud and technical analyst roles.

TECHNICAL SKILLS

Programming & web: Python, SQL, HTML/CSS, JavaScript/TypeScript, Next.js.

Development: Git/GitHub, REST APIs and JSON, relational databases, authentication/validation, testing, debugging and documentation.

Systems & support: Windows 11, Linux, PowerShell, VirtualBox, basic IP/DNS networking and general technical troubleshooting.

ACADEMIC & TECHNICAL EXPERIENCE

- Built and deployed database-backed web applications, using authentication, validation, responsive interfaces, testing and structured debugging.
- Applied Python, SQL and object-oriented programming to coursework involving relational data modelling, queries, APIs/JSON and server-side concepts.
- Used Git-based workflows, Linux virtual machines and Windows development tooling to configure environments, troubleshoot problems and document solutions.
- Maintained and updated a live radio website for a real stakeholder, testing changes and resolving unfamiliar technical issues.

WORK EXPERIENCE

Temporary Production Operative - Saica Pack UK, Warrenpoint | Jun 2026 - Aug 2026

- Operated and monitored automated corrugated-packaging machinery, completed output quality checks and responded promptly to production stoppages.
- Diagnosed and safely resolved routine equipment faults, followed site quality and safety procedures and escalated maintenance-critical issues.

Warehouse Operative - Pet Connection, Newry | Oct 2021 - Jul 2026

- Picked and prepared customer and fulfilment orders accurately; organised, replenished and rotated stock; supported dispatch and inventory accuracy.
- Maintained dependable attendance and safe working standards while balancing long-term employment with college and university study.

Kitchen Porter - The Garden Room, Warrenpoint | Aug 2024 - Jul 2026

- Supported busy teams, maintained hygiene standards, assisted with stock rotation and adapted quickly to changing priorities.

Earlier experience: Floor Staff, No.7 Duke, Warrenpoint | Jun 2022 - Sep 2022

EDUCATION & CERTIFICATION

BSc (Hons) Computing Technologies - Ulster University, Belfast | 2025 - 2029 expected

Year 2. Relevant study includes programming, databases, web development, object-oriented programming, networking and professional placement preparation.

Level 3 Extended Diploma in Technology - Southern Regional College | 2022 - 2024 | D*DD

Information Technology Specialist in HTML and CSS - Certipoint / Pearson VUE | 2023
