

JAMIE PARR

Computing Technologies Student | 2027/28 Software, Web and IT Placement

Belfast, Northern Ireland | jamieparr205@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFILE

Second-year Computing Technologies student at Ulster University seeking a 2027/28 industrial placement in software, web development or practical IT. Built and maintain a live stakeholder website using JavaScript, serverless functions and CI/CD, alongside personal web projects and university work. Brings nearly five years of part-time work, hands-on machinery troubleshooting, customer service, accuracy and dependable teamwork.

SELECTED TECHNICAL PROJECTS

Coast Internet Radio - Website Developer | [Source](#) | 2026 - Present

- Rebuilt and now maintain a live station website, working directly with the owner and using operational feedback to improve the mobile listener experience and owner-managed content.
- Solved an HTTPS/HTTP browser constraint with Cloudflare Worker relays and added serverless admin tools, first-party analytics, automated checks and deployment safeguards.

Local Web Fix - Portfolio Business Concept | [Source](#) | HTML, CSS, JavaScript, Netlify | 2026

- Designed and published a small-business service concept around clear scope, example pricing, mobile usability, accessibility and safe-access guidance without presenting it as client work.
- Kept the implementation deliberately simple and added automated checks for required pages, local links and the main site structure.

TECHNICAL SKILLS

Languages: Python, SQL, HTML, CSS, JavaScript and TypeScript. **Frameworks/platforms:** React, Next.js, Node.js, Supabase, Netlify, Vercel and Cloudflare Workers.

Development: Git/GitHub, GitHub Actions, CI/CD, Playwright, APIs, serverless functions, responsive design, accessibility, testing, debugging and technical documentation. **Systems:** Windows 11, Linux, PowerShell, VirtualBox and basic IP/DNS networking.

EDUCATION AND CERTIFICATION

BSc (Hons) Computing Technologies - Ulster University, Belfast | 2025 - 2029 expected

Currently in Year 2. Study includes programming, computing systems, databases, web technologies and technical problem-solving.

Level 3 Extended Diploma in Technology - Southern Regional College | 2022 - 2024 | D*DD

Certification: Information Technology Specialist in HTML and CSS - Certiport / Pearson VUE, 2023.

WORK EXPERIENCE

Temporary Production Operative - Saica Pack UK, Warrenpoint | Jun 2026 - 12 Sep 2026 (fixed term)

Operated and monitored automated corrugated-packaging machinery, including DRO flexographic printing and rotary die-cutting equipment and the C4 line. Diagnosed routine faults and production stoppages safely and escalated maintenance-critical issues.

Warehouse Operative - Pet Connection, Newry | Oct 2021 - Jul 2026

Prepared customer and fulfilment orders accurately, organised stock and followed safety and dispatch procedures while balancing long-term employment with study.

Kitchen Porter - The Garden Room, Warrenpoint | Aug 2024 - Jul 2026

Supported kitchen and front-of-house teams during busy services, maintained hygiene standards and assisted with stock rotation and changing priorities.

Floor Staff - No.7 Duke, Warrenpoint | Jun 2022 - Sep 2022 - Supported customers, event preparation and stock replenishment in a public-facing environment.
